

Few people are born **true** entrepreneurs. Those rare individuals are easily identifiable, though, by the sparks of creativity that practically bounce off of them. Nancy Beth Guptill, owner of Vantage BizServices based in Summerside, Prince Edward Island, is one of these wonderfully rare and unique individuals. Having launched three companies of her own, Nancy Beth has been a successful entrepreneur for more than two decades.

Her privately owned company, Vantage BizServices, offers innovative training, networking and entrepreneurial lifestyle programs to all provinces in the Atlantic Canadian region. These programs, while teaching others how to learn those entrepreneurial skills she was born with, also directly connect with national and international market opportunities for members and seminar participants.

While wearing her consultant hat, Nancy Beth's passion and specialty lies in business and life skills training for adult learners. In this role, she lends her expertise in the areas of business development, strategic marketing, sales, customer service, tradeshow marketing & sales, market research, entrepreneurship and creative innovation.

Nancy Beth also leads the Ladies Who Launch 'Atlantic' Intensive Incubator, teaching women **ENTREPRENEURSHIP AND CREATIVITY AS A LIFESTYLE** – including how to think creatively, embrace that creativity and always be launching.

Never one to shy away from a crowd, Nancy Beth is an extrovert - thriving in the spotlight. An experienced motivational trainer and speaker, her favorite topics include all things entrepreneurial and small business- related, with a sprinkling of personal development for good measure. She has trained and coached hundreds of entrepreneurs, business owners and managers nation-wide, including several high profile clients such as BizLaunch, Staples, ProfitLearn PEI, Credit Union PEI, and CompuCollege.

True to its tagline, Vantage BizServices is dedicated to **Inspiring & Motivating Entrepreneurial Success.**
